Objective

Motivated and enthusiastic student seeking an opportunity to start my career in the IT field. I aim to apply my programming and problem-solving skills while continuously learning new technologies and gaining practical experience in a professional environment.

Academic Performance

B.Tech in Computer Science and Engineering (Pursuing)

Parul University – Gujarat

Expected Year of Completion: 2027

Diploma in Computer Science Engineering

Parul University – Gujarat

CGPA: 8.4

Year of Completion: 2025

Skills

- Python Programming
- Basic Data Analysis
- Problem Solving
- Microsoft Office (Word, Excel, PowerPoint)
- Basic Knowledge of Databases
- Communication Skills
- Teamwork and Collaboration

Experience

Currently seeking an opportunity to gain professional experience. During my academic studies, I have completed several programming assignments and projects that helped me develop my technical and analytical skills.

Projects

Python Data Analysis Project

- Developed a small project to analyze data using Python libraries.
- Created graphs and charts to understand patterns and trends in the dataset.

Basic Chatbot Application

- Developed a simple chatbot using Python.
- Implemented features to respond to user queries and store conversation history.

Certifications

- Python Programming Certification
- Introduction to Data Analysis
- Basic Computer Skills Certification

Achievements

- Successfully completed academic projects related to programming and data analysis.
- Participated in college technical activities and workshops.

Interests

- Learning new programming technologies
- Data analysis and visualization
- Reading about technology and innovation
- Problem solving and logical thinking
